Dear Sir or Madam:

This email message and the attached file constitute EPA's transmission of a Data Call-In (DCI) Notice GDCI-056007-1922 to you. The DCI Notice requires you, a registrant of pesticide products containing the active ingredient sodium 1-naphthaleneacetate (PC code 056007), to take certain steps and submit certain data to the EPA's Office of Pesticide Programs within the time frames provided in the DCI to maintain the continued registration of your product(s) containing the active ingredient.

The attached file contains the DCI Notice and its cover letter, attachments, and instructions concerning the active ingredient. Please open and read the attached file. **You are required to acknowledge receipt of this transmission within the next five business days** by e-mail as further described in this message. Additionally, **you must provide a response to the DCI and its data requirements within 90 days**. Specific deadlines for submission of reports and data are set forth in the DCI.

A copy of the DCI will be placed in the Registration Review docket for the active ingredient at www.regulations.gov. If you have any questions about the DCI or cannot open the attachments, please contact the Chemical Review manager at romanovsky.anna@epa.gov.

Responding by Email:

To acknowledge DCI receipt by email, send your acknowledgement e-mail **with the original attachment(s)** to the Chemical Review Manager, Anna Romanovsky (romanovsky.anna@epa.gov). Include the following statement:

"I, [insert your name and title], have received from U.S. EPA's Office of Pesticide Programs the pesticide DCI ([insert DCI number]) for [insert chemical name] on [insert date] for [insert registrant name as shown on the attached DCI forms]. Additionally, I have successfully opened the file attachment(s) that accompanied the transmittal e-mail."

If you are an agent for the registrant, include this additional information in the acknowledgement statement above:
"I am the agent for [insert registrant name as shown on the attached DCI Forms]."

Thanks,
Anna
